READY TO BEGIN WORK ON TONTO DAM

GREAT CABLES BEING STRETCHED ACROSS CHASM WHERE DAM WILL BE BUILT.

A dispatch from Phoenix under Saturday's date, says:

The firm which has the contract for building the large irrigation dam at this place for the United States government under the reclamation act has just established its headquarters here. Machinery is arriving and extensive preparations are being made for the gigantic piece of masonry work. The contract will necessitate a vast expenditure of money before the work is started. The construction plant will consist of two and one-half inch cables, each 1,200 feet in length, extending across the chasm from one hill to the other above the dam site, a generator for transforming the electric power from alternating to direct current, a large number of derricks, both for operating adjacent quarries and for placing the rock in the wall of the dam, transformers and much other machinery. The machinery will represent a large outlay and the cost of transportation means a great deal more. It is more than thirty-five miles from the nearest railroad station, and every piece of machinery must be taken to the dam site by wagons. Freight rates, both railroad and overland, are excessive, as in all frontier districts, and hence the transportation feature of this contract, when the heavy machinery is considered, will in itself foot up many thousands of dollars.

The Roosevelt dam will, when completed, be the largest dam in the world. The Cheesman dam, which supplies Denver with pure mountain water now holds that distinction, but the Roosevelt dam will be higher by at least twenty-five or thirty feet. Its height will be 236 feet. Its length across the top will be 566 feet, with a width on top of sixteen feet. The length at the bottom will be only twenty feet, with a width of 166 feet.

The reservoir that will be created by this dam will have a capacity of 1,000,000 cubic feet and will hold sufficient water to irrigate 250,000 acres of land. After the first year, when the ground has become thoroughly saturated, it is expected that the water supply will be sufficient to irrigate considerably in excess of 250,000 acres.

It is probable that the active work of constructing the dam will be commenced before the close of the present year. The contractors are now installing the machinery, which has already arrived on the ground.

Corbett Was in Poor Shape

Chelms, Mass., Oct. 31.—Kid Goodman, of Boston, and Young Corbett, of Denver, went fifteen rounds to a draw at the Douglas Athletic club tonight. The decision was not received favorably and Corbett, who was in poor condition, took the count in the tenth and twelfth rounds. Goodman did all the leading after the third round.

Robbed a Mail Bag

A mail pouch containing a registered letter from a Corona merchant to an El Paso bank, was stolen from a crane at that station Wednesday. The pouch was afterwards found in an empty box car with the contents intact, except the registered letter. Captain News.

The Hospital

Thankful are They Who Escape The Surgeon's Knife

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not.

It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided.

The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is

Lydia E. Pinkham's Vegetable Compound

Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Paul Oliver, whose letter follows:

DEAR MRS. PINKHAM:—I was suffering from pains in my side and womb. The doctors said to get well I must have an operation performed, but I would not consent to that.

I heard of Lydia E. Pinkham's Vegetable Compound and sent for a bottle; the first dose did me good, and after taking the first bottle I could sleep all right and I did not have those pains around my womb which I had all the time before. Now I can ride ten miles in a carriage, my color has returned, and I am full of life. I owe all this to the Vegetable Compound.

It has also done wonders for my thirteen-year-old daughter. I will never cease to praise it and recommend it to my friends.

MRS. PAUL OLIVER, St. Martinsville, La.

Thousands of women, residing in every city and town in the United States, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills and creates radiant, buoyant female health. For your own sake try it.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

In Good Condition.

Bank Examiner James W. Norvell, of Colorado Springs, was in Carlsbad this week looking into the affairs of local banking institutions. In conversation with a representative of this paper, Mr. Norvell stated that the banks of Carlsbad and of the entire Pecos valley are in splendid financial condition, and make a good showing as regards deposits, which amount to more than one million dollars.—Carlsbad Argus.

PROVE IT ANYTIME.

By the Evidence of Albuquerque People.

The daily evidence citizens right here at home supply is proof sufficient to satisfy the greatest skeptic. No better proof can be had. Here is a case. Read it:

Mrs. J. Hall, of 519 South First st., says:

"One of my daughters suffered from backache for about eight months or a year. Sometimes it was so bad that she was completely prostrated for a day or so at a time. I read about Doan's Kidney Pills in our Albuquerque newspaper and thought they might help my daughter and we went to the Alvarado Pharmacy for a box. In a remarkably short time the medicine took effect and a little longer stopped the backache. We are pleased to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

JACK TAR'S NEW SMOKE.

British Admiralty Trying to Change His Taste in Tobacco.

London, Oct. 31.—After years of faithful allegiance to "hard" as Jack Tar calls the black twist Virginia tobacco he loves so well, he is to try the smoke and the flavor of a colonial-grown variety.

The admiralty has decided to make an experimental issue of various brands of tobacco produced within the empire. And Jack is further to be asked to try tobacco packed in tin, instead of the twigs which he prepared himself.

The tobacco will be issued in two strengths at the usual price of one shilling a pound.

To Start Work at Elizabethtown.

Dr. William R. Powell returned from Philadelphia to look after his

mining interests on Bitter creek this week, says the Baton Range. Dr. Powell is the president of the Independence mine, and has over twenty men at work in getting the property in shape for business. He has just placed two large boilers on the property to run the different machinery for both mine and mill, and will start to sink next week. The Independence shipped a car of very high grade ore last week and the result when known will bring a smile to the face of every prospector and miner in this district. Look out for the rest. The Oia dredge is still in full blast and is working three shifts regardless of the light frost we're having every night. John H. Funk, superintendent in wearing a big smile now twice a week when he embraces the yellow metal.

GO TO BELEN

The Future Railroad Center of New Mexico

Located on the Belen Cut-off of The Atchison Topeka & Santa Fe Railway

The new City of Belen is 31 miles south of Albuquerque, N. M., is at the junction of the main lines of the Santa Fe system—leading east and west from Chicago to San Francisco and Los Angeles, El Paso, Texas and Old Mexico

The Belen Town and Improvement Company

(INCORPORATED)

ARE THE OWNERS OF THE BELEN TOWNSITE, consisting of ONE THOUSAND BUSINESS AND RESIDENCE LOTS, (size 25x142 feet) fronting upon 80 and 70-foot streets and avenues, RIGHT in the business center of the NEW CITY and directly upon the Santa Fe Railway Depot Grounds. The Atchison, Topeka and Santa Fe Railway company is now grading its extensive depot grounds and yard limits 800 feet wide and a mile long, (capacity of seventy miles of side track) to accommodate its NEW PASSENGER and FREIGHT depots, HAWVEY EATING HOUSE, Round House, Coal Chutes, Water Tanks, Machine Shops, Etc.

THE CITY OF BELEN

Has a population of 1500, and several large Mercantile Houses, The Belen Patent Roller Mills, capacity 150 barrels daily; winery, etc. It is the largest shipping point for flour, wool, wheat, wine, beans, hay and fruit in New Mexico. From its location upon the Great Trunk line, leading North, South, East and West, to all points in the United States and Old Mexico its future growth as a Commercial point cannot be estimated. All fast limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and climate unsurpassed. Belen has a \$16,000 public school house, two churches, a commercial club, three hotels, restaurants, etc. It needs right now a bakery, tailoring establishment, shoemaker, plumber, planing mill, drug store, harness shop, etc. THE LOTS OFFERED ARE LOW IN PRICES AND TERMS EASY. One third of purchase money cash; two-thirds may remain on note and mortgage for one year with interest at eight per cent per annum. Title perfect and warranty deeds given. COME EARLY IF YOU WISH TO SECURE THE CHOICE LOTS. For further particulars and prices of lots call in person or write to
